Source: Insight Investment and Rimes. All performance is annualised. Fund performance is shown for share class 7. Fund performance is calculated in Euros as total return, including reinvested income, gross of fees and expenses. Past performance is not indicative of future results. Investment in any strategy involves a risk of loss which may partly be due to exchange rate fluctuations. Any gross of fees performance does not include fees and charges and these can have a material detrimental effect on the performance of an investment. Please note: data is provisional and may change. Investors must read all performance information alongside the full performance information in the KIID.

FUND MANAGER COMMENTS

The European Central Bank (ECB) cut interest rates by 25bp at its January meeting, bringing the key deposit facility rate to 2.75%. This cut was partly made to help growth, with the eurozone economy stagnating during the fourth quarter of 2024. The ECB also believes inflation will return to a target of 2%, however annual inflation in the eurozone rose by 20bp from 2.2% in November to 2.4% in December. The Manufacturing Purchasing Managers' Index rose from 45.1 in December to 46.6 in January, while the Services Purchasing Managers' Index edged down from 51.6 to 51.3 over the same period. In markets, 1-month EURIBOR fell from 2.84% to 2.66%, while the 3-month rate declined from 2.71% to 2.59%. We bought bonds and floating-rate notes from ANZ. Positioning will be determined by central bank meetings.
